

SUNGUARD SHADE SAILS™

Interconnected · Layered Designs

Features & Benefits

- ☼ Sunguard Shade Cloth® provides up to 96% UV protection
- ☼ Breathable shade cloth lowers ambient temperatures up to 20 degrees
- Fade, rot and mildew resistant
- Engineered to meet International Building Codes
- Wind rating up to 115 mph with cover; 185 mph without cover (note: covers must be removed when winds are forecasted greater than 90 mph)
- ☼ 80% water repellent (note: waterproof fabric is available in limited colors)
- Holds up to 5 lbs. snow load, 10 lbs. live load
- Huge steel and fabric color selection
- ☼ In-House Engineering and Design Department
- Hot dip galvanizing available for marine environments
- All structures have a powder coat finish

Applications

Limitless applications depending on customer design needs

Why Choose Carolina Shade Sails?

- ☼ Fabric: Sunguard Shade Cloth® is ☆ Cable & Fasteners: strong, vibrant, and durable. The high-density polyethylene fabric with UV additives is Raschel knitted to ensure stability and a consistent shade pattern.
- Thread: PTFE (polymer) thread used for stitching is guaranteed not to rot due to UV exposure or other environmental causes.
- ☼ Corners: Reinforced, heat-sealed with vinyl interfacing sewn between layers.

- - Tensioning cable is galvanized steel: fasteners are commercial grade stainless steel.
- Modular Design: Structures are designed to be interconnected to form infinite lengths of shade.
- **Quick & Easy Cover Removal:** No special tools required. Just loosen the turnbuckles or u-clamps with a standard wrench and you're done!

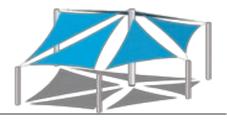

STRONGEST NON-PRORATED WARRANTY!

15 Years Fabric & 20 Years Steel

Shade Sails

10'

40'

3 or 4 posts

Custom sizes and heights available upon request. Multiple post combinations possible.

Posts can be interconnected to form unique shade patterns.

Installation

- All structures must be installed per factory specification. Hardware provided includes stainless steel bolts, galvanized cable, turnbuckles and cable clamps. Apollo Sunguard does not supply anchor bolts.
- ☼ Direct embedment. Rebar required.
- Footing requirements vary according to structure size.
- ☼ Cannot be surface mounted on existing concrete slab.

Fire Safety

All of our fabric passes the ASTM E-84 fire rating test as well as the NFPA 255 and NFPA-701, and is rated a Class 1 Material.

Available in 19 Vibrant Colors!
